## Lazybag

It is strongly recommended to protect your sails against UV light once your boat is at the mooring.

The SAILONET mainsail covers, sleeves for furling genoas or are made of Sunbrella® fabrics, made from solution dyed acrylic yarn, produced by Dickson

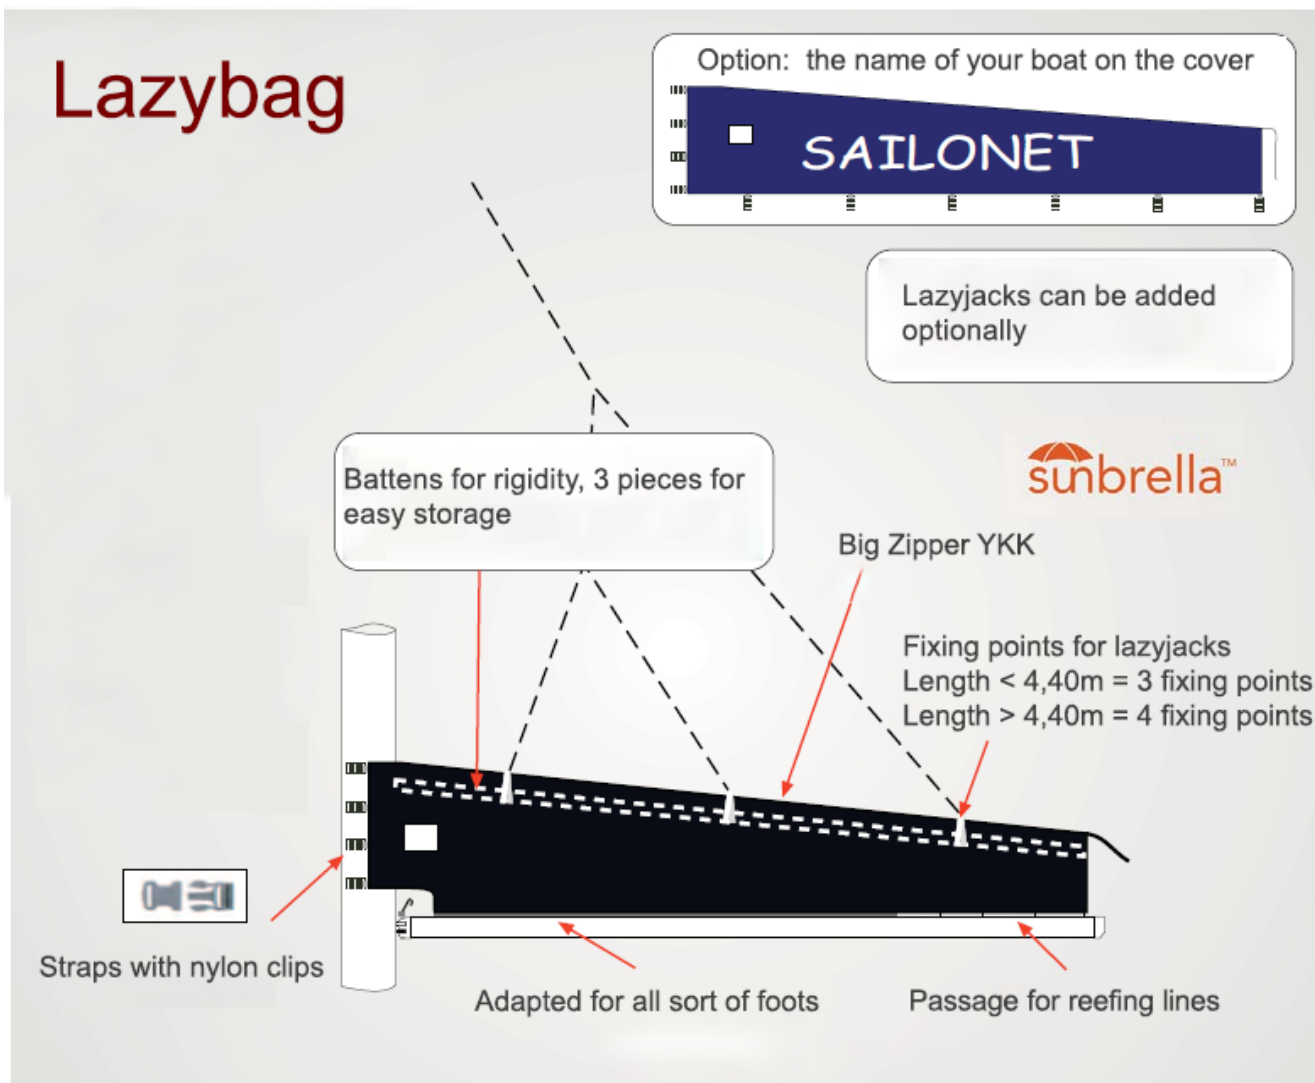

The cloth, available in several colours, is particularly adapted due to its high resistance against UV light.

The same cloth is used for sprayhoods and biminis which allows to adapt with the lazybag.

All accessories are assembled with UV treated yarn and custom made, perfectly adapted to each mainsail.

The lazybacks are delivered without lazyjacks (separately available).

6 month warranty
