Furling S

Spi sur emmagasineur - Gamme Ariane

Rediscover the pleasure of sailing under spinnaker - easily and safely!

The Furling S by Sailonet is an asymmetrical spinnaker, equipped with an anti-torsion cable for easy furling.

Functional with any furling system, it can be furled and stored easily. The functioning is similar to the system of a furling genoa.

The Furling S covers the range between a gennaker and an asymmetrical spinnaker. It can be used for apparent wind angles between 70° and 130°.

Furling S is made of nylon Contender with a cloth strength specifically adapted to your boat and sailing program.

The Furling S benefits from a 2 year warranty.

Luff fitted with an anti-torsion rope and stainless steel terminals.

Stainless steel ring at clew

Depending on the surface, the applied material will be Nylon from 0.75oz to 1.5oz. You can choose any color to a maximum of 3.

The chart shows wind angles from 0 to 180 degrees. Gennaker is indicated between 70° and 130°. Furling S is indicated between 80° and 120°. Genois is between 40° and 60°. Asy is between 100° and 110°. Sym is between 130° and 150°.

Depending on the sails, a change in shape or volume allows to define the operating range more to downwind or more to upwind up to a maximum of 15°.
