

# Sailonet

## Genoa with hanks

Cross Cut - Jupiter range

Designed by our Sailonet design department, the headsails are produced by partner-sailmakers which have been chosen based on their outstanding production qualities.

This range is particularly adapted for family coastal cruising, charter and bluewater sailing.

The Jupiter range is made of tough Polyester Dacron® with a strength adapted to your sailing style and program.

The Jupiter medium genoas are equipped as standard with bronze snap shackles that can be used with one hand.

The complete equipment (three-point clew eyes, leech and footline, trim stripes, tell tales) optimizes and enables easy handling with your genoa.

All sails are sold with their bag, ready to sail.

Two year warranty.

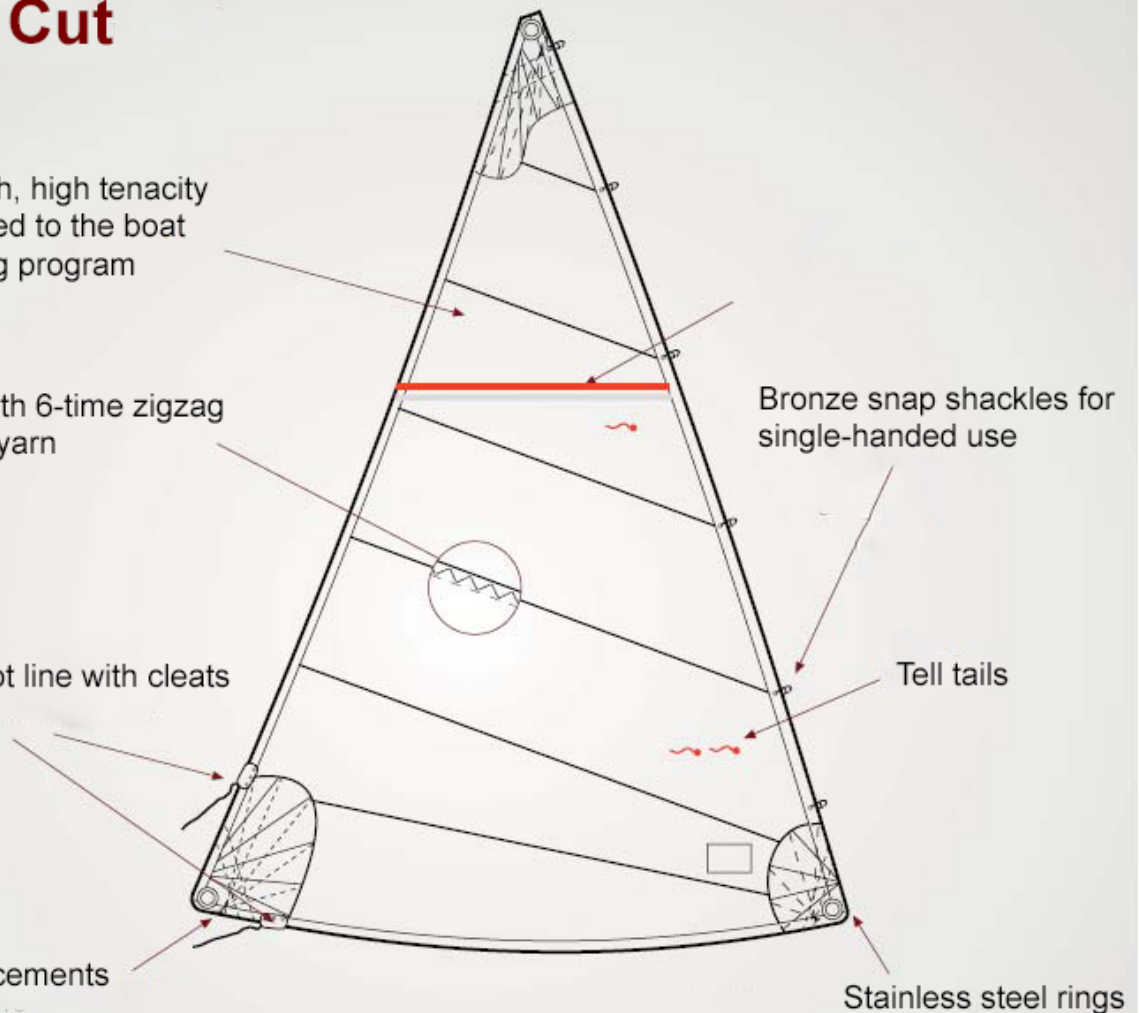

## Cross Cut

Polyester cloth, high tenacity  
Weight adapted to the boat  
and the sailing program

Assembled with 6-time zigzag  
Uv-protected yarn

Leech and foot line with cleats

Radial reinforcements
